The Insulation & Polymer Technologies group at the Swiss corporate research center focuses on the development of innovative insulation solutions to be implemented in the next generation products of ABB. Currently, we are looking for motivated students to join our multidisciplinary team of researchers. Internships would start beginning of August/September 2016 with a duration of 6 months.

**Location:** Baden-Dättwil, Aargau, Switzerland  
**Job Function:** Administrative  
**Employment Contract Type:** Internship, Full-Time  
**Division/Function:** Business Function Research & Development  
**Business unit:** NA  
**Publication ID:** CH58620163_E1

**Tasks**
- Take part in current research projects studying innovative polymeric materials and production processes  
- Gain experience in the field of polymers and electrical insulation applications  
- Conduct independent research  

**Requirements**
- Currently pursuing a degree in materials science/chemistry or similar discipline (completion of at least 6 semesters); official enrolment is essential  
- Broad understanding of materials with focus on polymers or polymer composites  
- Fluency in English, written and spoken  
- Enthusiastic, self-motivated, and self-reliant  
- High sense of responsibility  

**Additional Information**
ABB is able to offer you an interesting role within a highly motivated team, together with open communication structures. On the basis of a personal, practice-oriented introduction program, you will be given the opportunity to acquire the confidence needed to work independently as well as be a constructive member of an inclusive team within your assigned area.

Interested in joining our team? If so, we look forward to receiving your full application (motivation letter, CV, references) only via our online careers tool. A better world begins with you at www.abb.com/careers
